

Step-by-Step Flyer Creation in Photoshop

Adobe Photoshop stands as the industry standard for graphic design and photo editing, utilized by millions of professionals globally. This presentation will delve into its extensive capabilities, from fundamental tools to advanced techniques like layer masking and color grading. We will examine real-world applications, including flyer design and branding materials, ensuring you leave equipped to leverage Photoshop's full potential for high-quality, creative projects. Join us as we unlock the secrets of this powerful software.

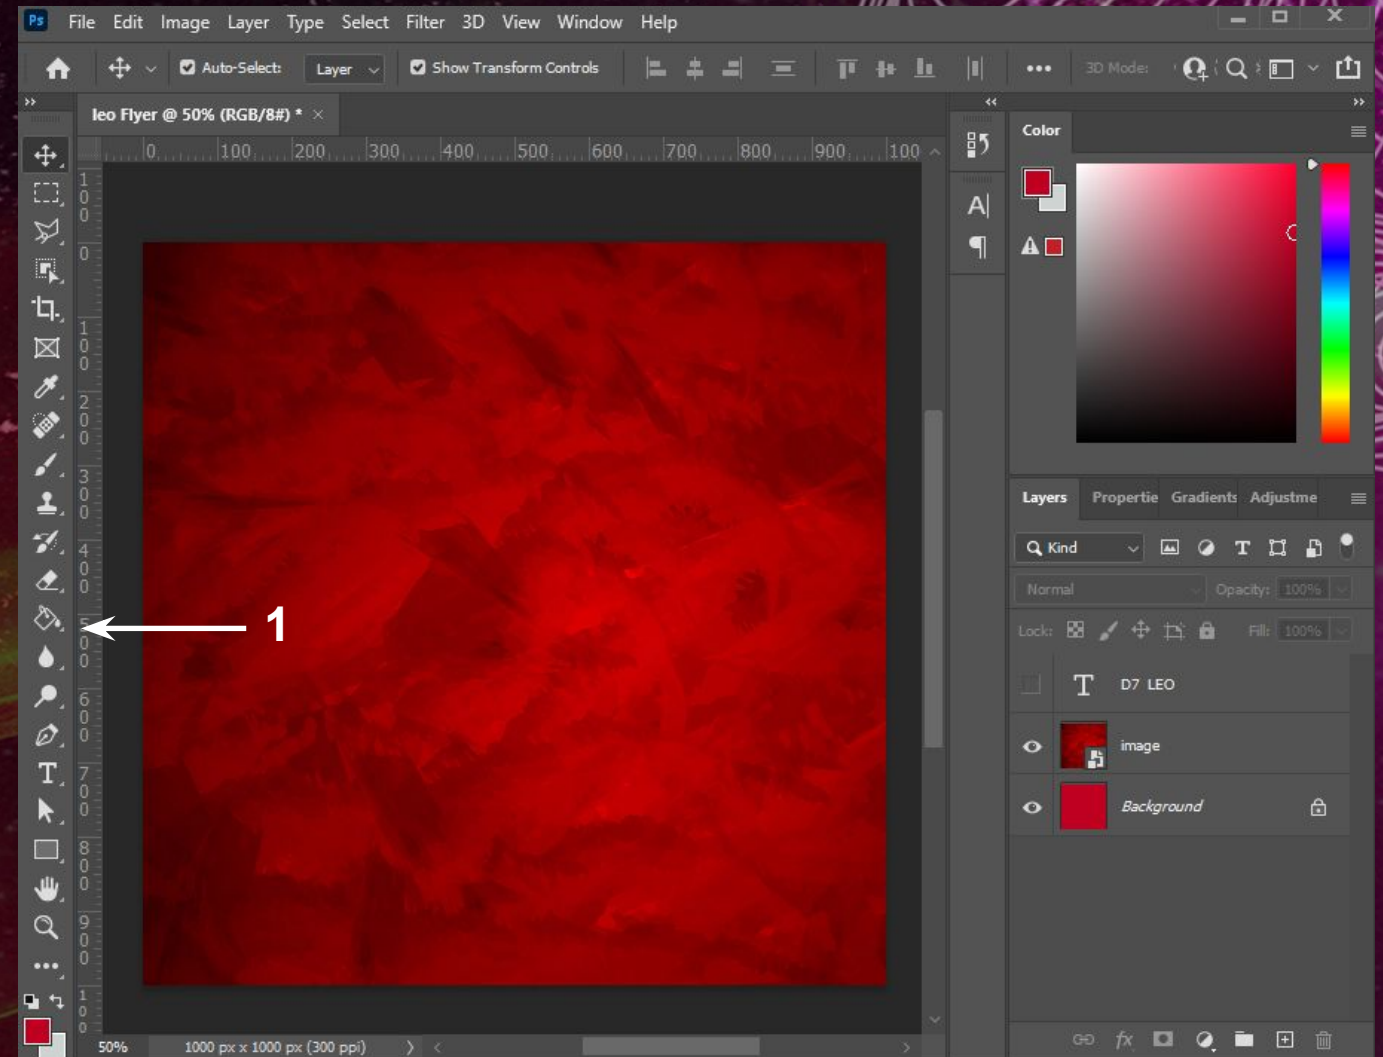

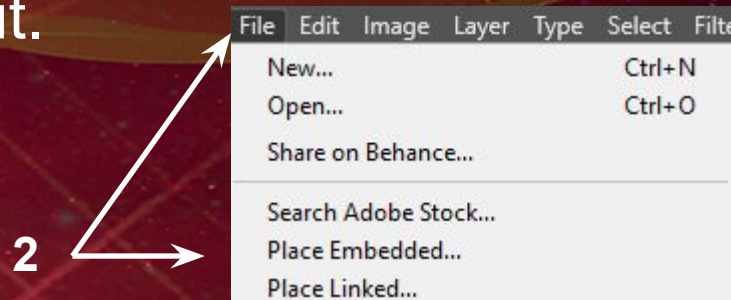

Set Up Your Canvas

1. Open Photoshop → File > New.
2. Choose flyer size.
3. Change Preset details.
4. Resolution: 300 dpi (for print).
5. Color mode: RGB (for digital).

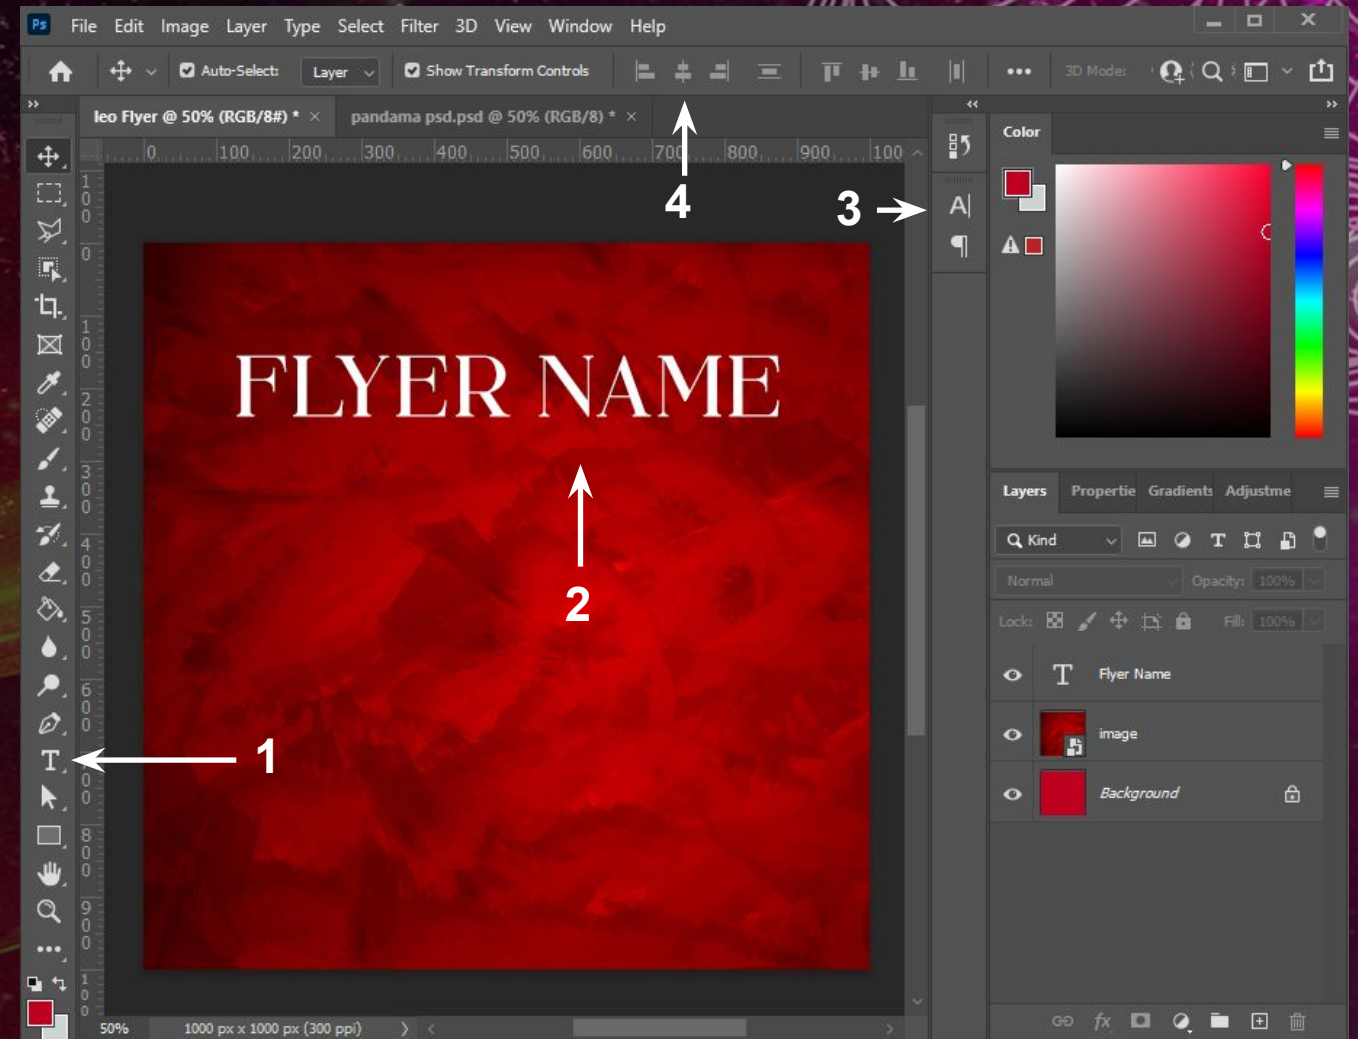

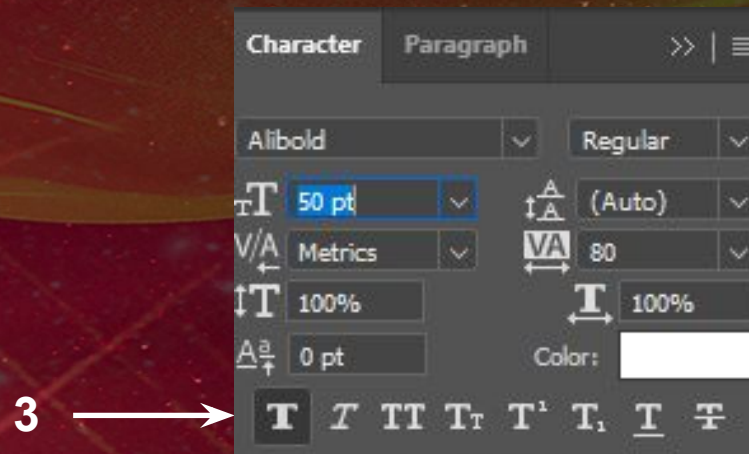

Add Insert Images & Background

1. Use Paint Bucket Tool to fill the background.
 2. You can also import a texture or photo (File > Place Embedded or Drag and drop).
- Keep it simple so text stands out.

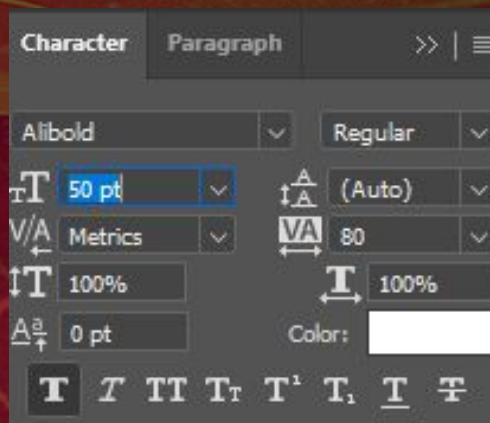

Insert Text

1. Select Text Tool (T).
2. Type your main headline (e.g., “Flyer Name”).
3. Click character and Use bold, large fonts.
4. Center or place at the top,

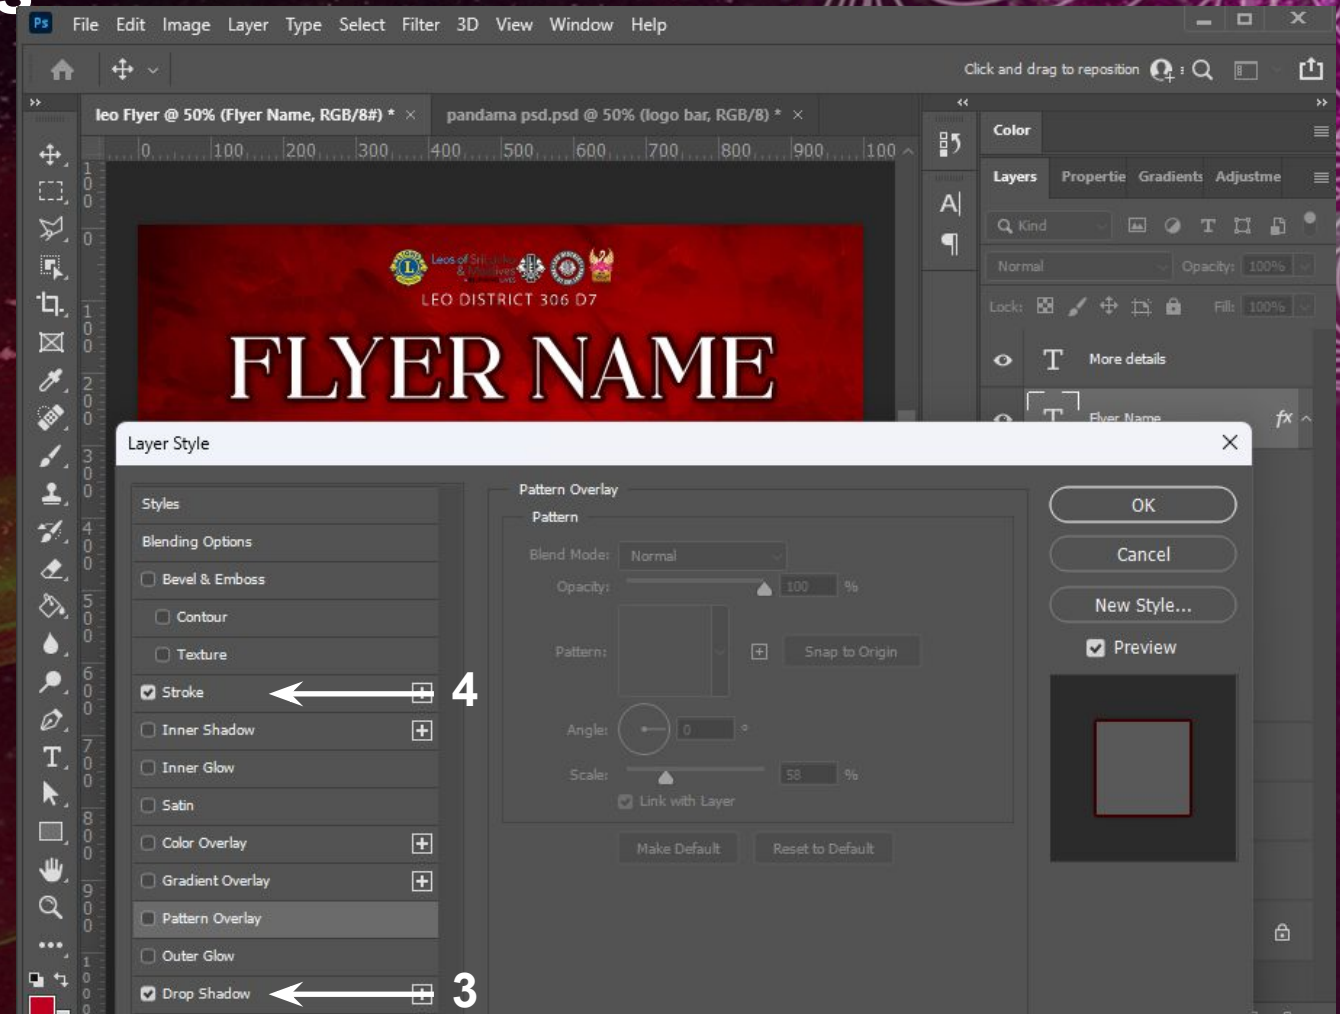

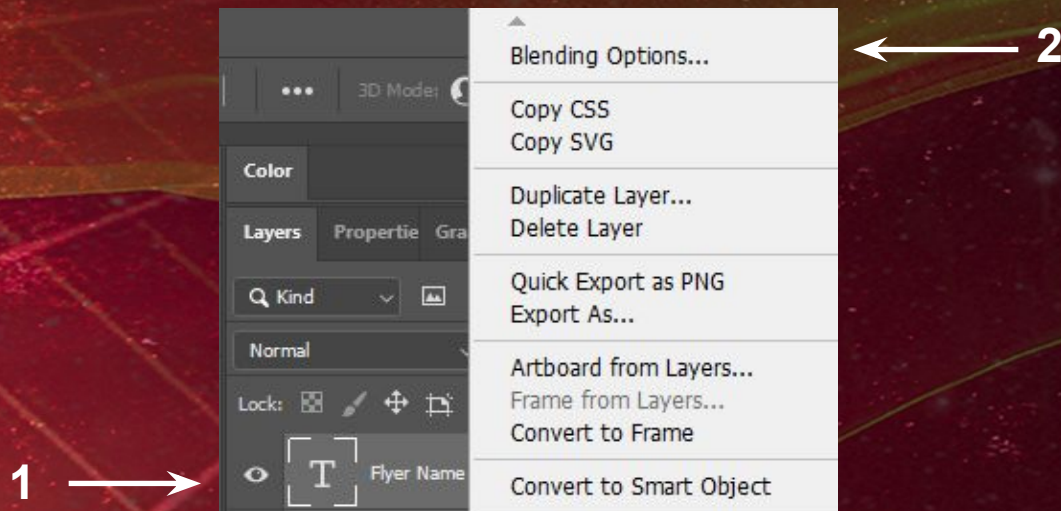

Add Supporting Text & logos

1. Use smaller text boxes for details.
2. Change Font colour.
3. Date, time, location.
4. Add Logos (Drag & Drop).

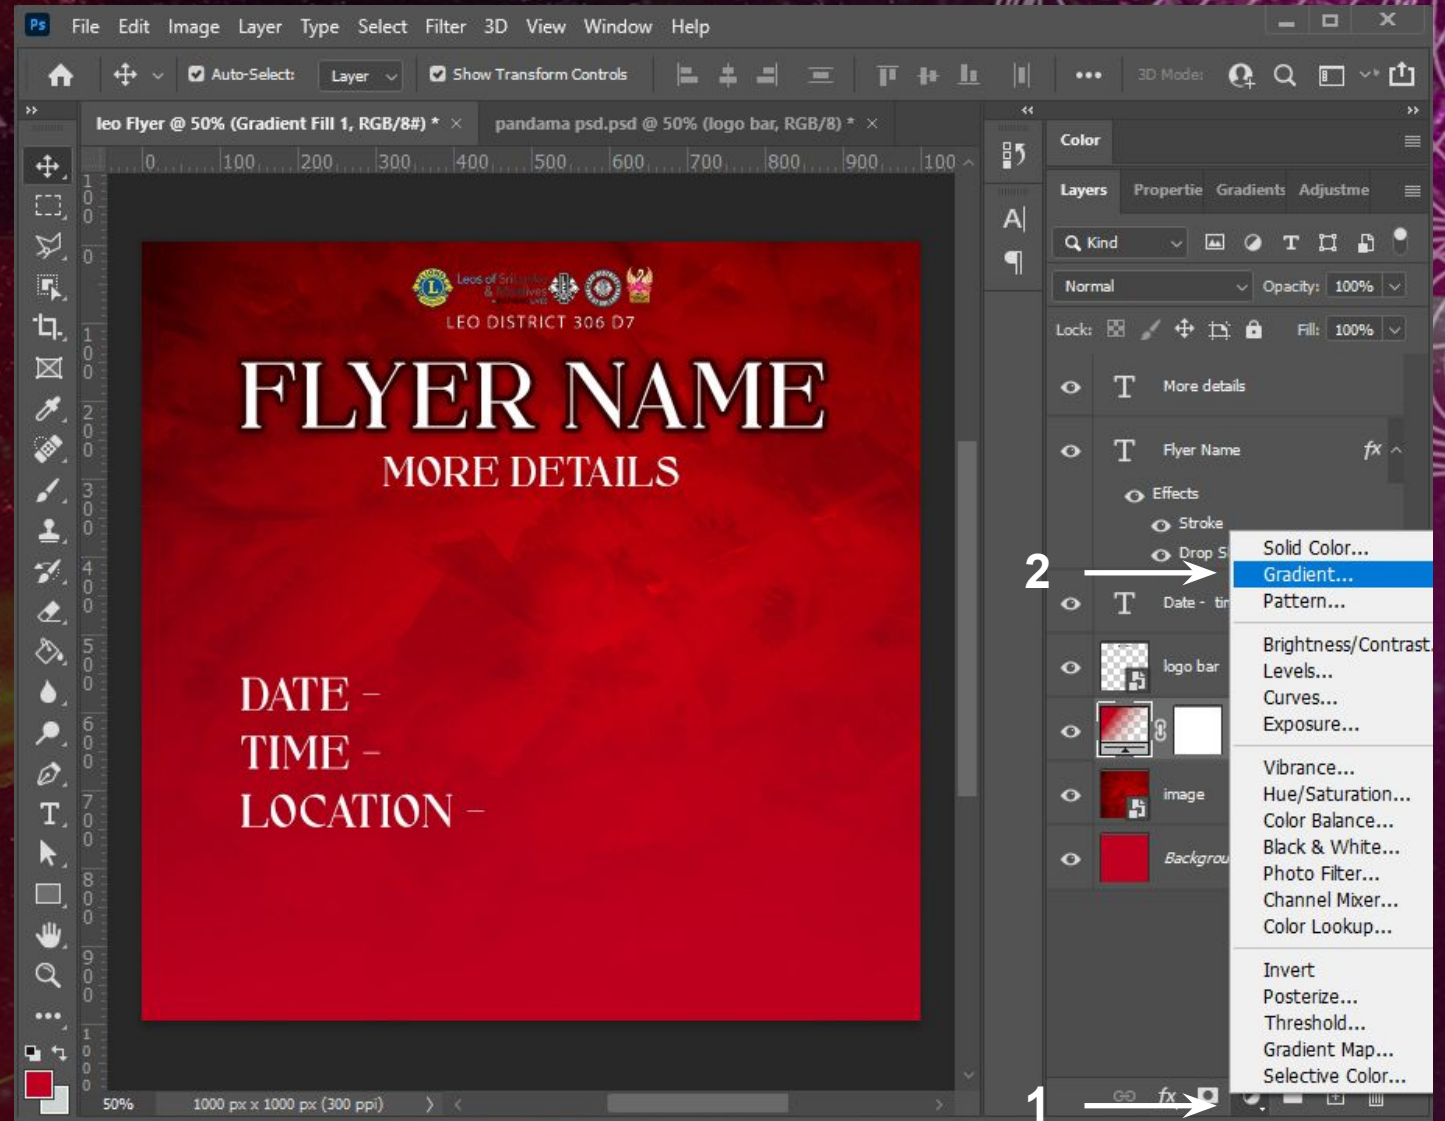

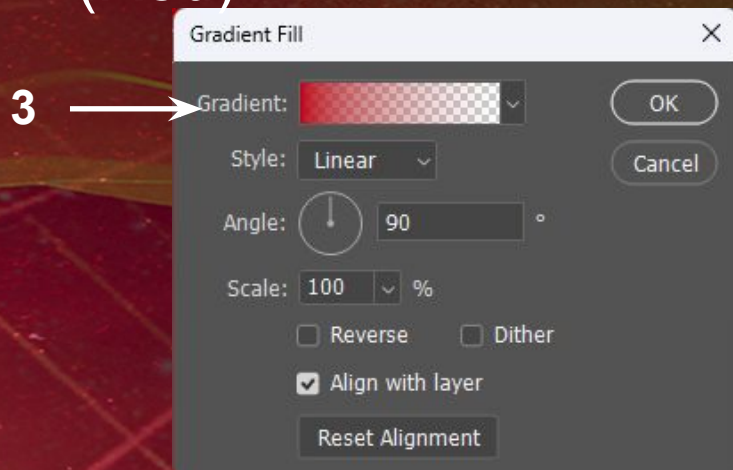

Apply Design Enhancements

1. Right click Selected layer (Flyer name)
2. Click blending options
3. Drop shadow
4. Stroke

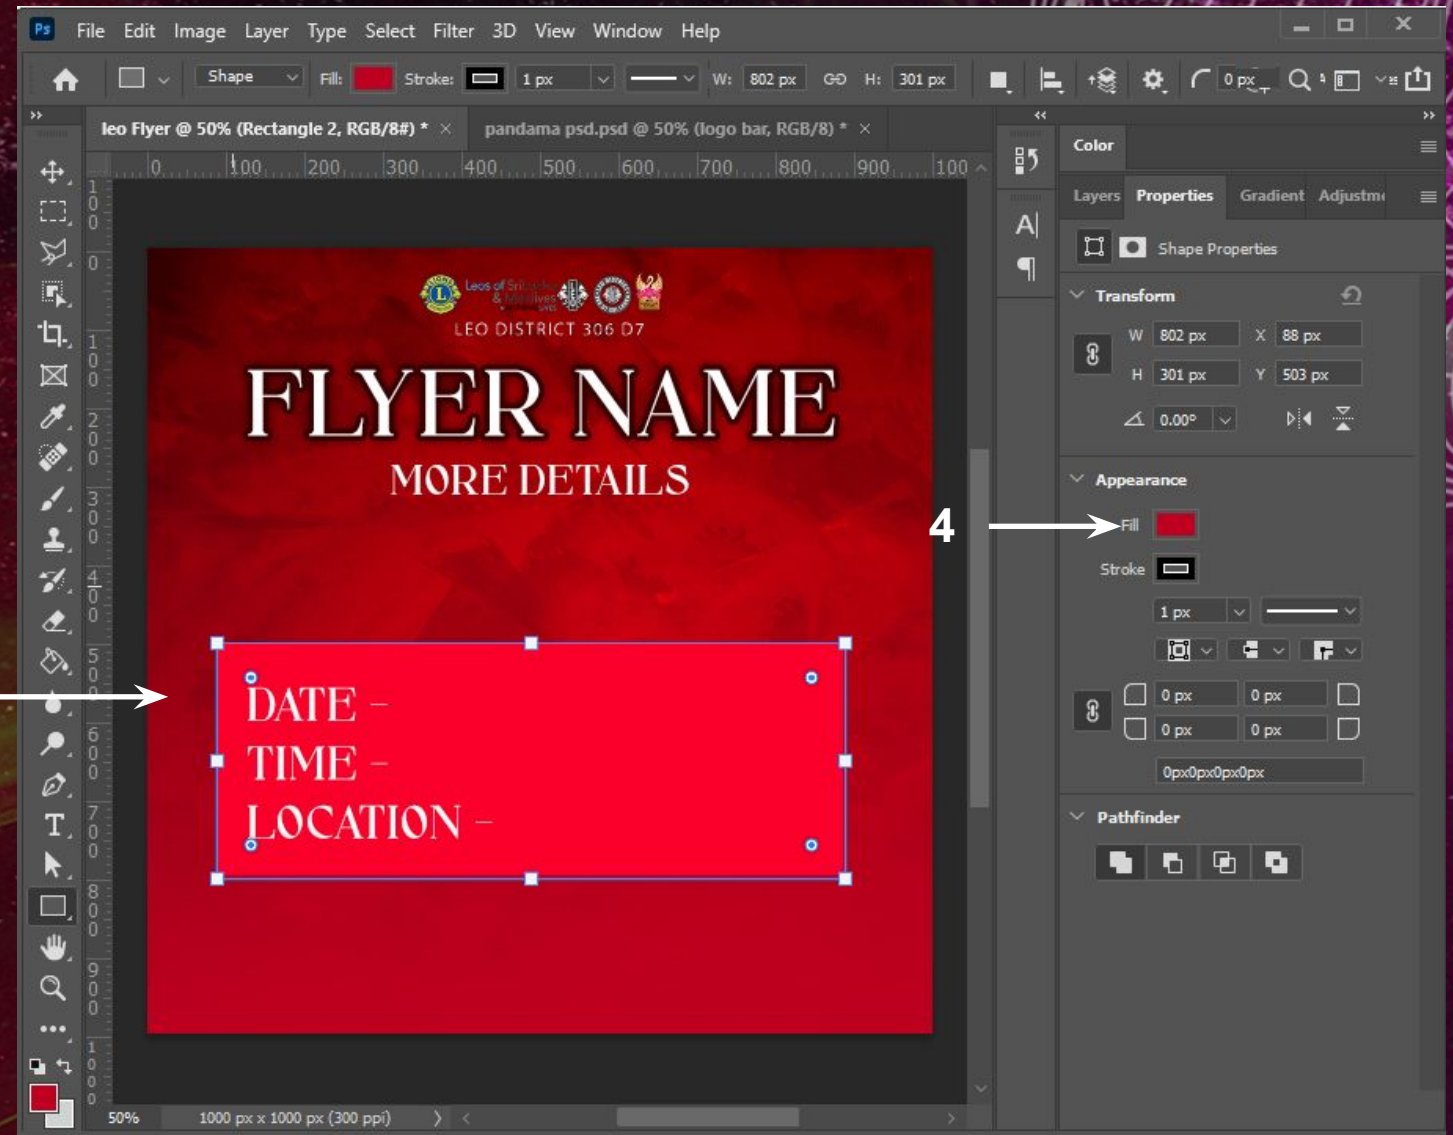

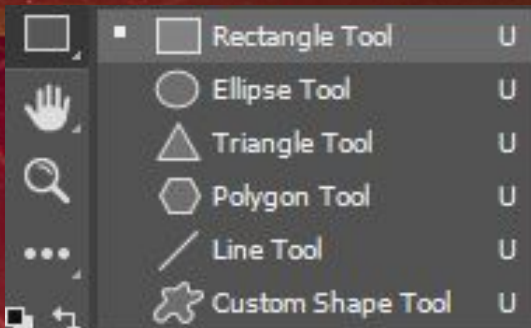

Apply Gradient

1. Click Fill Layer
2. Click Gradient (Opening Gradient Fill)
3. Select Colour (Red)

Add Shapes

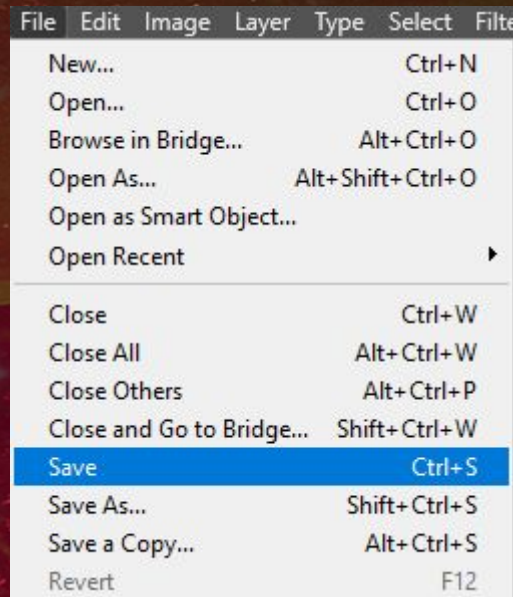

1. Click Rectangle tool
2. Select Tool
3. Draw Rectangle
4. Select Fill Colour (Red)

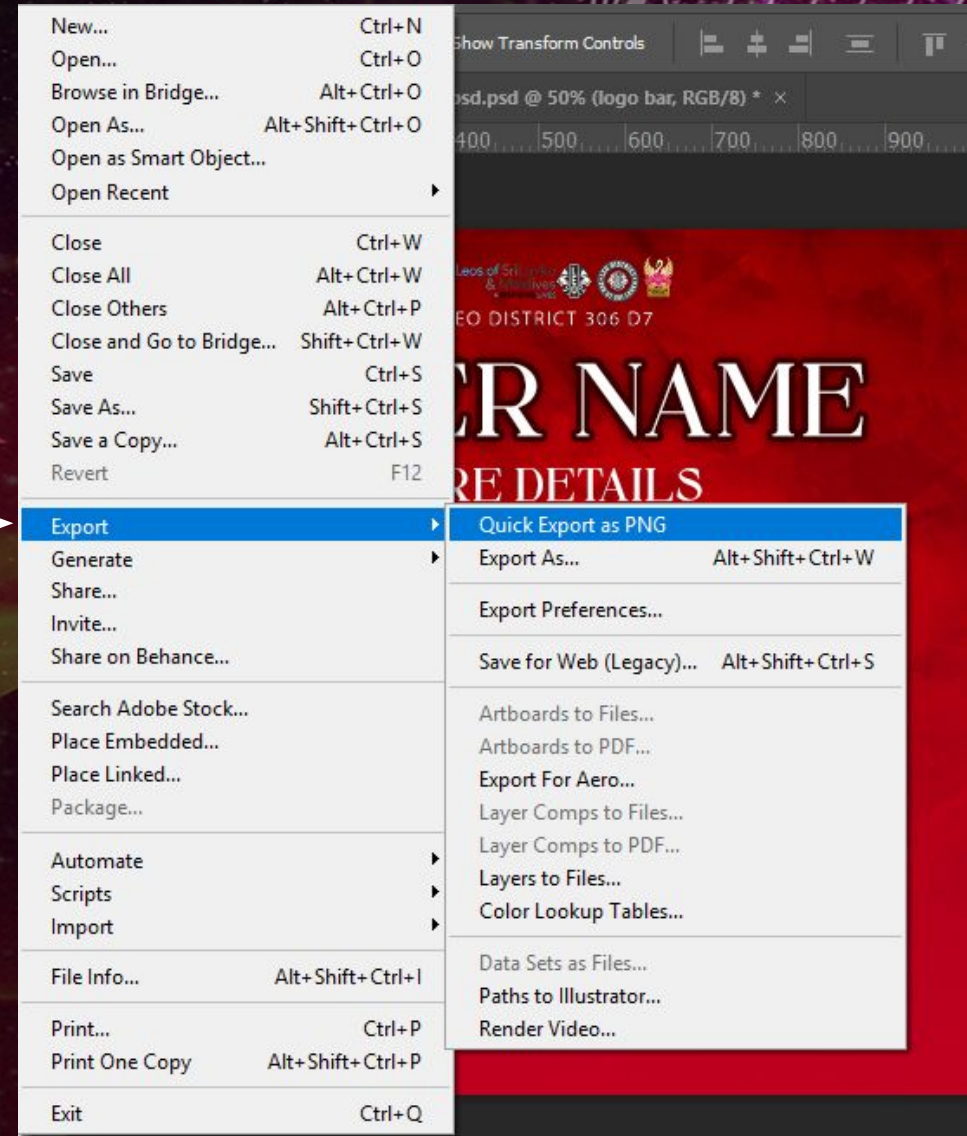

Save & Export

1. Save PSD for editing later.
2. Export for digital > quickly export images as PNG
